I never lose. I either win or learn.

Nelson Mandela
Coming together is a beginning, staying together is progress, and working together is success.

- Henry Ford
Opening arteries without good wound care is pointless.

Debriding this wound without revascularization will still lead to amputation.

We must come up with a better way to treat CLI together!
By failing to prepare, you are preparing to fail.

- Benjamin Franklin
We Rise By Lifting Others
Divide the Task, Multiply the Success!

D.R.E.A.M.: Docs Revascularizing Extremities Against Major Amputation

Paul Michael, MD, FSCAI, Cardiology Partners, JFK Medical Center, Atlantis, Florida

On January 16, 1964, the “father of intervention” Charles T. Dotter, MD, and his trainee Melvin P. Judkins, MD, performed the first intentional percutaneous transluminal angioplasty on patient Louis She. She was admitted to the University of Oregon Hospital with a non-healing left foot ulcer and gangrenous toes. Amputation was recommended by all of her physicians; however, Mr. She selected surgery. Because of the result, one of history’s most significant procedures was born.

Synergistic Wound Care
A BAD ATTITUDE IS LIKE A FLAT TYRE.
YOU CAN’T GO ANYWHERE UNTIL YOU CHANGE IT.

Stay away from negative people. They have a problem for every solution.
Unusual Case & a Team to the Rescue
Impact of a Community CLI Team

- Time to Appropriate Consultation
- Time to Vascular Workup
- Time to Angiography
- Time to Therapy Delivery
- Time to Discharge
- Time to Ambulation
- Wound Healing Time
- Amputation & Healthcare Cost
- Mortality
For the strength of the Pack is the Wolf, and the strength of the Wolf is the Pack.
